

How it Works:

1. Complete and submit the Referral Form. You will be contacted by the Speech Language Pathologist to set up services.
2. Together with the Speech Language Pathologist you will determine:
 - A. when the sessions will take place
 - B. how long each session will be (typically 30 minutes or 60 minutes per session)
3. Pay in advance through the PayPal link provided on “Contact Us” page or the “International” page of our website.

Using PayPal:

Open the PayPal link on the “Contact Us” page or the “International” page. You will see a link on the PayPal page that reads “Price per Item”

Type in the previously agreed amount and click “Continue”.

On the next page PayPal will ask for your email. You do not need to give your email. Simply scroll down to the bottom of the page and click “Pay with Debit Card or Credit Card”.

Fill in the requested information and click “Pay Now”.

Done!

Don’t worry. Your information is safe and will only be used for the transaction you are completing.

4. Once the schedule of sessions has been determined, you will receive an email with specific log in instructions to access the “Speech Therapy Room” through your computer. During the sessions in the Speech Therapy room you will be able to see and hear the Speech Pathologist as well as share interactive materials used in each session.
